CSV Kielen wënscht iech
Schéi Feierdeeg

HOW ARE THE CONSTRUCTION SITES IN OUR COMMUNITY?

Several construction projects in the municipality are taking longer or have not yet started. This is no coincidence, but has its reasons.

The municipality sets its priorities consciously: it is about improving the quality of life, sustainability, preserving the heritage and supporting the clubs, always within the framework of financial possibilities.

A few examples illustrate this:

- Traffic calming: In some localities, the measures have already been implemented or are being implemented. A major construction project is the introduction of a 30-speed zone in Kiel, which should be completed by the end of the year.
- Kehlen bypass: The project has been submitted to the ministry, and interviews are still planned for this year.
- Revitalization of the village centers: The municipality has purposefully purchased old building materials, such as For example, the “Haff Elcheroth” (now an annex of the municipality) and the “Café Lippert”, where work has begun. In Nospelt, the “Schockweilerhaff” and the “Peickes” house also belong to the municipality – but these projects are designed for a longer term.-

Education: The new school in Elmen will open in early 2026. Immediately afterwards, the old school in Kiel will be renovated. The school is scheduled for mid-2027.

- General challenges: The duration of the projects often depends on personnel and financial resources. The municipality relies on long-term planning and small but constant progress.

I ask for your understanding and patience and assure you that we will work together with the citizens to make the municipality even more livable.

FELIX EISCHEN, MAYOR

FAREWELL AFTER 14 YEARS ON THE CITY COUNCIL AND BEYOND

4 years on the council of juryman

My first municipal elections with the CSV were in October 2011 and I was very proud to be able to work directly on the municipal council.

In 2017, I was elected third and CSV again ran for mayor after many years.

On election Sunday 2023, CSV was the clear winner with 6 seats and quickly agreed in coalition with the LSAP (4 seats) to share the second alderman's post, so that after 4 years in this position I made room again in July 2025.

At the same time, I also decided not to return to the mu-

nicipal council and hope for your understanding.

My resignation is also related to the fact that the municipality of Kehlen and the syndicates of Sidor and Sidero, where I was also in the office (Sidero), need new representatives.

Finally, a big thank you to the aldermen and municipal council, to the entire municipal staff and the administration for their friendly and respectful cooperation.

A big thank you to all of you, to the voters who have made it possible for us to work for the municipality of Kiel for 14 years. It has been a great pleasure and a great honor for me to be able to work for the municipality of Kiel.

And finally, the biggest thank you to my wife, who has supported me all these years, for her patience and understanding when things got a little late.

Stay healthy everyone!

ROMAIN KOCKELMANN

KEVIN URBING, NEW MEMBER OF THE MUNICIPAL COUNCIL:

My story and my motivation

I am 40 years old and a native of the municipality of Kehlen, and have been a new municipal councilor for the CSV since July 2025. I am the father of a 12-year-old girl and have been active in the municipality since I was little, as a football player for FC Kiel, the fire department in Nospelt, and in various club activities such as theater, castle burning and Emaischen.

Professionally, I am a trained cabinetmaker and run my own business together with my brother, where I can live out my passion for the craft. Despite reduced time for club life, my local commitment remains strong.

Motivated by my experiences and my connection to the municipality, I ran for the CSV in 2023 and have now been given the chance to join the municipal council. I am aware that I still have a lot to learn, but I am ready to give it my all.

My priority is sustainable and healthy growth and the development of modern infrastructure for the residents of the municipality.

NEI MEMBEREN AM CSV DELEGÉIERTEROT

Den Delegéierterot vun der CSV Kielen trëfft sech regelméisseg virun all Gemengerotssëtzung, fir gemeinsam iwwer aktuell Themen a Sujeten ze diskutéieren, déi d'Gemeng betreffen.

All Member vun der CSV Kielen kann hei aktiv matmaachen. Falls du nach net Member bass, mee gären emol am Delegéierterot dobäi wéils sinn, da mell dech w.e.g. un gbreden@pt.lu.

Mir hunn eise neie Memberen, déi sech rezent gemellt hunn fir am CSV Delegéierterot matzeschaffen, zwou Froen gestallt:

1. Du bass dat lescht Joer Member am CSV Delegéierterot vu Kielen ginn. Wat war deng Motivatioun?
2. Wéi eng Themen interesséieren dech perséinlech?

ECH WËLL MEMBER GINN
JE VEUX DEVENIR MEMBRE

SANDY SCHWARZ

1. I became a member of the CSV delegation to take on new challenges and actively participate in our community life. As a new resident of Kehlen and mother of six children, the future of children and young people is particularly close to my heart. Education is a key issue that motivates me to get politically involved in order to further strengthen the quality of life and education in our community.
2. Education and inclusion are important issues for me, just like culture. This must be made interesting for all age groups so that the next generation can also continue to be actively interested in it.

MICHEL ENGELS

1. My motivation for joining the CSV Delegate Council is that I want to actively participate in our community and shape our community together with a strong team. I have always been interested in politics because my late father was an active member of the CSV for many years. So it was clear to me that CSV is the party I want to strengthen.
2. I am very interested in mobility in the municipality of Kiel and the topic of youth is also important to me, because this is our future.

MIKE HALL

1. My motivation for joining the CSV Delegate Council was that I am very interested in our politics here in the municipality as well as in the country.
2. There are 2 topics that appeal to me the most and that is agriculture and also education, because I come from a farm myself and I am also still a student, so I have a different view on things than people who are not from a farm or are no longer in school.

ANNE LUDOVICY

1. I became a member of the Board of Delegates because I think it is important that young people are also involved in politics and interested in it. I want to contribute to bringing new, fresh ideas and commitment to our municipality.
2. As a member of the Youth Commission, I am interested in the young people in our municipality, and because they are given a voice, they are our future and our municipal policy should be put together by and with our youth.

PAUL REDING

1. As a new resident of Dondel, municipality of Kehlen, it is important to me to get involved in municipal politics and thus contribute to ensuring that our municipality can continue to offer its residents a high quality of life and also to ensuring that the CSV remains a strong and constructive voice in our municipality. My motivation is based on the opportunity to actively shape the future of Kiel.
2. As a member of the cultural commission, we are naturally particularly interested in cultural projects, especially those where we integrate families from the municipality. At the same time, I see the traffic situation and housing as a priority, where we should continue to propose long-term and sustainable solutions to ensure a better quality of life in our municipality.

ANDRÉ WIRTH

1. I have decided to become a member of the CSV delegation of Kehlen because I want to be more actively involved in the future of our municipality and also of our party. For me, it is important not only to criticize, but to work myself to find solutions. I also see this commitment as an opportunity to better understand from the inside how politics works, and how we can move things forward together.
2. I think it is important that we as a party respond not only at the national level, but also locally to the issues that directly affect people. I am particularly interested in housing policy, the environment and mobility, youth and education. However, I am also ready to discover and discuss new topics - for me, politics is an exchange, not a finished product.

YOAN DELPORTE

1. Since last year I have been a member of the CSV delegation in Kehlen. I decided to do so because I firmly support the principles and orientation of our party. My motivation is to actively engage and contribute to Luxembourg's continued development in the areas of technology, research and politics.
2. As a doctor of engineering, I am particularly interested in the topics of energy, development and education, equal opportunities and sustainable mobility at the national level. I am firmly convinced that we can only find joint solutions that not only benefit today, but also lay a safe and stable foundation for future generations.

SANDY MEIS

1. I have been a member of the CSV delegation in Kehlen since last year, because I am convinced of the principles and orientation of our party. I want to actively contribute to positively influencing the development of my community.
2. Issues such as education, equal opportunities and sustainable mobility at the local level are particularly close to our hearts. I believe that we must find solutions together that not only work for today, but also form a stable basis for future generations.
